

## BLAME SPEED IN DEATH OF EARL WAGNER

Evidence that Thomas S. Ferguson, Hanover, was driving at an excessive rate of speed and lost control of his car was found by a coroner's jury Monday afternoon at an inquest into the auto accident death last November 19 of D. Earl Wagner, 56-year-old East Berlin accountant.

Ferguson, who declined to testify at the inquest, was the driver of a car which, according to testimony, crossed the Hanover-Carlisle highway in the path of a car operated by D. Preston Witmer, Shippensburg R. D., in which Mr. and Mrs. Wagner were passengers.

Ferguson, Witmer and Mrs. Wagner were badly hurt and Mr. Wagner was dead on arrival at the Hanover Hospital from a fractured skull and chest injuries.

## Hear Six Witnesses

The jury Monday found no evidence of negligence on the part of Mr. Witmer.

The inquest was held in the main court room at the courthouse with the Adams County coroner, Dr. C. G. Crist, in charge. The crash occurred about two and a half miles south of York Springs while the Wagners were en route to a school dinner at York Springs.

Long hospitalizations for Ferguson and Mrs. Wagner had delayed the inquest, the coroner explained.

## Shows Jury Pictures

Trooper Edwin P. Karr of the Gettysburg substation of the state police was the first of six witnesses to take the stand. He testified briefly and showed pictures of the wrecked cars and the accident scene.

Witmer, who said he had been driving for 40 years, said he had no warning and no opportunity to avoid a crash when the Ferguson car suddenly swerved to his side of the road "when it was only 30 or 40 feet away. In an instant it swerved across and into my path. The last I remember was just before the crash."

Mrs. Wagner, who suffered a broken leg and dislocated hip in among other injuries and was in the hospital 14 weeks, said she

## NEW SCALE OF POLICE WAGES IS ADOPTED

Wage scales for "privates" on the borough police force and establishment of three grades of policemen were adopted by the borough council at a meeting in the engine house Monday evening.

New men on the force will be paid \$3,200 the first year, \$3,400 the second and \$3,600 the third according to the schedule approved by the councilmen.

At the same time the safety committee was asked to include in an ordinance to be submitted next month a schedule for first, second and third class patrolmen.

Men starting in the force will be "privates" during the first three years, which will also be the probationary period before full classification as a "patrolman." The three classes of patrolmen will receive different salaries and they will be designated as first, second or third class according to abilities and duties.

Approval was given for removal of a parking meter at the Adams County Free Library and painting of the curb yellow at that spot to permit cars to drive to the curb so that books may be placed in "snorkel" type receptacle to be placed at the curb by the local Woman's Club.

## Reject Texaco Plea

A request by the Texaco Company for permission to place 35-foot-wide ramps, instead of 30-foot, at their proposed service station at 450 Steinwehr Ave. was refused.

The council voted to pay \$105 dues in the Pennsylvania State Association of Boroughs.

Council voted to advertise for bids for a new police car, "buy or rent," depending on which is the most economical. The present police car, bought two years ago, has cost the borough \$1,500 in repairs in two years and needs \$135

## Beginners To Enroll Thursday

All children who are planning to start to school in the Gettysburg Joint School System next September should be registered April 7. Richard A. Folkenroth, coordinator of elementary education, reminded parents today.

The registration will be held at the Kefauver Elementary School 9 a.m.-12 noon, 1-3 and 6:30-8:30 p.m.

Parents must bring their children's birth and vaccination certificates with the child. The child must be six years of age before February 1, 1961.

## EDUCATION IS 'CATCHING UP' CLUB IS TOLD

Education, once accused of "being behind the times," is making rapid strides and will soon "be ahead of the demand" in anticipating the needs of young people in the future, Clifford B. Snowberger, principal of Gettysburg High School, told the Rotary Club at its meeting Monday evening in the YWCA.

The problem of the school principal is a many-sided one, Snowberger said. "He must be alert to needs of the future and change curriculum as needed in order to give the students the best possible education they can obtain; he must be able to keep costs at a minimum without sacrificing quality; he must be judge, jury, district attorney and policeman in maintaining discipline in the school, and most of all he has to set up the schedule."

Snowberger declared scheduling "one of the most difficult tasks. Each year you have from 120 to 150 more students enter school and so you have to create new classes for them and tie their activities into the schedule for the others. You must set up a schedule for about 220 classes a day, plus music, art, gymnasium, industrial arts, home economics, choruses, driver education, plus time to eat, so that everyone will be able to get to the classes and places assigned him throughout the day without a conflict. It is an almost impossible task. It also helps make the summer the busiest time of the year for the principal."

## \$430 Per Student

Snowberger said, "It costs \$430 to educate one student one year in Gettysburg High School. No wonder we have such high taxes. But it is the cheapest we can do it and give the student what he needs."

Speaking of discipline, Snowberger outlined the detention system he inaugurated at the local school. Youngsters who break the rules are first warned. If they (Continued On Page 3)

## Open Evangelistic Services Monday

A series of evangelistic services opened Monday evening at the Memorial EUB Church with Rev. Laverne E. Rohrbaugh, pastor of Centenary EUB Church, Biglerville, speaking on "Where are the Tears?"

Services will continue each evening this week at 7:30 o'clock.

Subjects to be used by the Rev. Mr. Rohrbaugh are as follows: Tonight, "Have You Any Room for Jesus?"; Wednesday, "A Tragedy in Three Acts"; Thursday, "When God Knocks on the Door"; Friday Children's Night, "The Danger of Resisting the Holy Spirit"; Saturday, Youth Night, "The Meaning of the Cross."

The public is invited to attend all services.

## Queen, 100,000 Welcome Charles deGaulle Today; Left London 16 Years Ago

## By EDDY GILMORE

LONDON (AP)—French President Charles De Gaulle's eyes dimmed with tears today as Queen Elizabeth II and 100,000 cheering Londoners welcomed him to London after an absence of almost 16 years.

His eyes filled at the stirring strains of "The Marseillaise," played against a background of world and personal history—a sweep of events and circumstance that could never be lost on a man like De Gaulle.

Sixteen years ago here in London the tall, starchy general led the Free French forces, battling against a sagging enemy and struggling with the Allies for recognition as an equal. The Allies often disagreed with him.

## Greeted At Station

He returned today as President of the Fifth French Republic, more powerful than any Frenchman of his times.

## The Queen welcomed De Gaulle

at Victoria Station. This marked

her first public engagement since the birth Feb. 19 of her third child, Prince Andrew. Spectators remarked that the Queen appeared as radiant as ever, but gained some weight.

She presented the French leader to a number of waiting British dignitaries including Prime Minister Harold Macmillan.

Outside the station the general found the famed Coldstream Guards and their band.

Three-day Visit

When the band launched into the French national anthem, De Gaulle choked up.

Later, with the Queen beside him, De Gaulle drove off to Buckingham Palace. The streets were lined with spectators.

De Gaulle and his foreign minister, Maurice Couve de Murville, arrived by train after flying from France to Gatwick Airport.

The visit is to last three days.

He is officially visiting the Queen but the trip gives him a chance

for talks with Macmillan.

The work at the bridge will include lowering the bed of the stream to five feet under the bridge. Work is to be completed before plans are completed for a cover over the Tiber by the Aero Oil Co. at its property at the west end of the bridge.

The finance committee was asked to make a decision by next meeting on whether the town should pay for its new parking meters now or pay on a monthly installment basis. Paying on the installment plan will cost five per cent more.

### ASCO Men There

Attorney Donald G. Oyler, George Olinger and Edwin Minter of Adams County Sanitation Co. reported to council the taking over of the garbage collection system and asked whether new permits were needed and other regulations that must be observed. The borough appointed its solicitor, Attorney Eugene V. Buleit to work with Attorney Oyler in seeing that all details conform with borough regulations.

Oyler told council his group had stepped in to take over collections when it became apparent that "a financial crisis" was developing in the collection business.

Council President Guise said: "I think this new company is on the road to effect an efficient garbage disposal collection system at no cost to the town. I hope that everyone will give them a chance to work out the problems that have plagued us the last several years."

### DEATHS

#### Alvie Leroy Brown

Alvie Leroy Brown, 61, husband of Mrs. Madeline M. Hoover Brown, Hagerstown, died suddenly at his home Sunday at 9 a.m. of complications.

Born in Thurmont, he was the son of the late Ruben A. and Miranda May Harbaugh Brown. He had resided in Hagerstown for 10 years and was a carpenter by trade.

He was a member of St. Matthew's EUB Church, the Good Will Bible Class, Brotherhood Class, and was a World War II veteran.

Besides his wife, survivors include: sisters, Mrs. Nellie Klipp, Waynesboro; Mrs. Glenn Diehl, Cumberland; Mrs. Harry Feigley, Hagerstown, and Mrs. Margaret Thompson, Fla.; brothers, Paul, Thurmont, Wilbur, Thurmont, and Charles, Littlestown; several nieces and nephews.

The Children's and Senior Choirs of St. Paul's Lutheran Church, Biglerville, will rehearse jointly this evening at 7 o'clock at the church.

The Rev. Harry Fehl, retiring as secretary of the local club because of assignment to a church in Frederick, expressed his appreciation to the members for their kindnesses to him and said that Kiwanis had been "of great value to me, not only on the social and civic plane but also on the spiritual, national and international levels."

The Rev. C. R. Simmons Jr. was elected the new secretary to fill the vacancy caused by the resignation of the Rev. Mr. Fehl. President William Ditzler presided.

The Chancel Choir of Trinity Lutheran Church, Arentsville, will rehearse at 7 o'clock and the Chapel Choir at 7:30 Thursday evening. The Chapel Choir will sing for the 10:30 o'clock service on Palm Sunday.

The Children's Choir of Flohr's Lutheran Church, McKnightstown, will rehearse at the church at 6:30 o'clock and the Youth Choir at 7 Thursday evening. The Catechism Class will meet at the church at 7:45 o'clock Thursday evening.

The Preparatory Membership Class of the Wenksville Methodist Church will meet Thursday afternoon at 4:30 o'clock in the sanctuary.

The Arendtsville PTA will meet Thursday evening at 7:30 o'clock at the school. A panel discussion on the operation of the Upper Adams School District will be held. There will be movies for the children.

A joint meeting of the Willing Workers Sunday School Class and the Ladies' Bible Class of Bethlehem Lutheran Church, Bendersburg, will be held Thursday evening at 8 o'clock in the social room of the Sunday School. A film on "Cancer" will be shown and a demonstrated talk on preparing cancer bandages will be given by Mrs. Henrietta Blucher, Gettysburg. Mrs. Richard Galusha, Bendersburg, will display a flower arrangement which the class is considering for a project. Members are asked to bring a needle, thread and pieces of white muslin for making bandages.

Plans were discussed to place one-cent meters, providing five minutes for a penny on the north side of E. High St. at the post office.

On recommendation of the highway committee, the council voted against extending South St. to Long Lane.

Paul Aumen, Hanover, commercial sales representative for the Metropolitan Edison Co., presented council with a set of plans and maps containing recommended changes in the street lighting of the town "outside of the white way."

The plan proposes in some instances increasing 1,000 lumen lights to 2,500 lumen lamps. In other cases longer arms are suggested to place the light further over the street in shaded areas. In some sections movement of present lights is proposed. There are more than 300 street lights in town.

The lighting committee was asked to study the proposal.

Councilman John Thrush asked councilmen to study the Littlestown constructed ornamental lamp placed on a standard on the southwest portion of Lincoln Square. It is planned to place mirror glass at the top of the fixture to throw light downward, and to install mercury vapor type lamps.

The group agreed that junior-senior high school students who purchase tickets to the Glee Club concert may hold the stubs for admission to a dance to be held at the school cafeteria immediately after the concert. The dance will be sponsored by the student council with the PTA members as chaperons.

ACCEPTS PASTORATE

Rev. C. Frederick Matthias associate pastor of First Presbyterian Church, York, has accepted a call to be pastor of West Chester Presbyterian Church, West Chester, it was announced Sunday.

During the past two years Rev. Matthias has pursued post-graduate studies at the Lutheran Theological Seminary.

INDICTED IN YORK

Among true bills found by the April grand jury in York was one against John H. Rudisill, R. 5, charged with drunken driving. A count of turning off lights to avoid identification filed against Rudisill was ignored.

DRIVER CHARGED

A charge of reckless driving has been brought by borough police before Justice of the Peace Robert P. Snyder against Letitia Stewart, Gettysburg R. D., as a result of an auto accident on York St. in which Mrs. Stewart's car struck a sign and pole.

LICENSED TO WED

James G. Newman and Loloris A. Spangler, both of Gettysburg, have secured a marriage license in Frederick.

MILWAUKEE (AP)—Unusually heavy voting marked the start of the Wisconsin primary today, pointing to a possible record ballot in one of the nation's most important elections.

In some cities, the balloting was more than twice as big as usual during the first hours after the polls open at 7 a.m. (CST).

The confirmands were Joyce Ann Bowers, Leroy Paul Bowers, Alice Ann Flynn, Larry Eugene Helwig, Gary Leon Herring, Robert Llewellyn Hershey, Joseph Henry Maddox and Richard Barber Shade. The following were received by letter of transfer from various churches: Mr. and Mrs. Bion Merry, Mr. and Mrs. John Person, Mr. and Mrs. Richard Shade, Mr. and Mrs. Hirschel Shank, Mrs. Barry Shearer and Mrs. Robert Price.

The Rev. Mr. Heiney delivered a sermon on the subject "Be Strong in the Lord." The choir sang the anthem "I Would Be True," accompanied on the organ by Mrs. Clarence Myers. The altar flowers and the flowers worn by the members of the confirmation class were presented by the parents of the confirmands in their honor. It was announced that next Sunday is the deadline for membership in the Gettysburg Seminary Auxiliary. Contributions for membership should be made to Mrs. Mervin Weikert or Mrs. Herman Keefer. Donations for the cemetery fund should be in the hands of the committee by Easter Sunday.

The Easter season services of Holy Communion will be held on Friday at 7:30 p.m. and on Palm Sunday at 10 a.m. The confirmand will receive communion at the Palm Sunday service. Nursery care for pre-school children will be available in the Primary Sunday School room during the 10 a.m. service on Palm Sunday. Holy Week services will be held on Maundy Thursday and Good Saturday, July 23.

(Continued From Page 1) gineers, after an aerial inspection of the Missouri basin, estimated damage at about 5 million dollars.

The flooding at St. Joseph, in northwest Missouri, was the second worst of the century, second only to the 1962 spring overflows, but damage was not heavy. Subsiding of the North Grand and Chariton rivers was expected to bring a slight drop in the Missouri at Bonneville, in mid-Missouri.

#### Threaten 29,000 Acres

A stage of 27.1 feet was reported at Hermann, Mo., a small community west of St. Louis. A crest of 29 feet was expected Thursday night, with danger of flooding some 29,000 acres of levee-protected land.

At St. Charles, a town of about 14,500 near St. Louis, the stage was 30 feet and another 2½ feet is expected by Friday with overflows threatening to cover 10,000 acres of farmland.

The Missouri and Mississippi converge just above St. Louis but no serious damage was expected.

Flood threats in most other Midwest states appeared over but in the East, the swollen Hudson River in New York spilled over its banks into streets and homes in the upper valley area. More than 30 families were evacuated from their homes at Waterford, N.Y., as overflows from the Mohawk and Hudson rivers covered a six-block area.

The flooding Hudson also forced families to evacuate their homes in Troy, Pleasantdale and Kingston, N.Y. An 18-block area was under a foot of water in Troy.

The Susquehanna River began to recede after rampaging through Oneonta and several smaller towns, forcing more than 400 families from their homes.

Mr. Tao was introduced by Dr. Gerald Doo, a member of the local club who was a fellow student with Tao in high school and college in China. Tao has been press attached in Washington for the last two years and formerly was Chinese news service editor in New York. He also served as radio announcer for Free China.

Telling the clubmen that there are three Lions clubs in Taiwan and other clubs in Chinatown in New York City, he said Chinese-Americans in Washington are planning to form a Lions club there. He described the geography of the island system about Formosa and said the total area is about 14,000 square miles or about equal to Massachusetts and Connecticut combined with part of Rhode Island.

With mountain peaks up to 14,000 feet, only about 24 per cent of Formosa is arable, he said. Hard work and intensive use of fertilizer has made it possible for Formosa to raise enough rice to export some to Japan and to make the island the second largest sugar exporter in the free world. He told of industrial uses developed for the sugar cane pulp and spoke in appreciation of the economic aid and investments received there from the U.S.

The Easter festival service by the Sunday School will be held on Easter Sunday at 7:30 p.m. The church council has called a special meeting of the congregation to be held on Sunday, April 24, at 10 a.m. The purpose of the meeting is to vote on a recommendation from the Sunday School to make the following alterations to the Primary Sunday School room: Additional lighting, install acoustical tile ceiling, and put up two folding doors to partition the room for classes. The annual Sunday School picnic usually held on the first Saturday in August will be held instead on Saturday, July 23.

But despite the fact that some students get "into detention during the year," the speaker said: "You ought to be happy to live here. Gettysburg and Adams County have the very finest type of people as their citizens. And despite the few who cause problems, I think I can safely say we have a very fine group of students in our school. I can say that I was surprised by the high quality shown by our students. #### Dr. Gifford Speaks

Dr. Roy W. Gifford spoke on "What Rotary Means To Me." He said, "I like most Rotary's international program. Anything that can help improve international relations is doubly important at this time. Rotary, by making us aware of the customs and habits and ideas of people throughout the world, helps teach us that we can learn from others."

Attorney John A. MacPhail, president of the club, reported on the White House Conference for Youth he attended in Washington.

A committee comprising Atty. Eugene Buleit, Dr. Gifford and Dr. Kenneth Smoke was appointed to suggest revisions of the by-laws.

#### Terrific Speed!

Hewitt Line, Carlisle R. 2, who was following the Witmer car at a distance of about 200 feet, placed Witmer's speed at 45 miles an hour and said he saw the Ferguson car swerve into Witmer's path. He told of helping injured from their cars.

Fifteen-year-old Charles Gemmer, who lives close to the accident scene, said he saw Ferguson's tail lights swerve off the road to the right and then cross the highway. "I saw the headlights come together and heard the crash," he added. He did not estimate car speeds.

B. O. Moore, York Springs R. 2, whose testimony indicated he was ahead of the Ferguson car and preparing to turn right into a road leading to his home, said he saw in his mirror the Ferguson car come up back of him "at a terrific rate of speed." He added: "If he'd had wings, he'd have taken off."

#### Read Ferguson Statement

Then Trooper Karr returned to the stand to read statements taken from principals after the accident. He quoted Moore as estimating Ferguson's speed at 100 miles per hour.

Karr said there was a 2½-inch drop from the highway to the berm. Tracks showed Ferguson traveled 46 feet off the right side of the road before crossing into Witmer's path. The Witmer car's wheels slid for 18 feet straight ahead before the crash, the officer said.

He read to the jury a statement by Ferguson in which the driver placed his speed at 35 to 40 miles an hour and said rain or mist had not enough to establish a market, been falling. He said an old car in

### REV. BRANTLEY HAS RESIGNED

The Rev. J. Keller Brantley has submitted his resignation to the Paradise Charge, which comprises Trinity (Roth's) United Church of Christ and Paradise (Holtzschwamm) United Church of Christ. The resignation is to become effective April 27. A supply pastor will serve starting May 1.

The Rev. Mr. Brantley has accepted the call to serve the Mt. Crawford Charge, Mt. Crawford, Va.

He began his Christian ministry in the Beam Charge, Somerset County, Pa. Other charges which he served were Cladie Charge, Somerset County; Carroll Charge, Westminster, and his present charge from September 17, 1952, until now.

The Brantleys have four children, Paul, who is a teacher in the Spring Grove Jointure, teaching in the New Salem Elementary School; Larry, who is attending Penn State and will graduate this spring and enter the seminary in Lancaster this fall; John Thomas, who is serving with the Armed Forces in Germany, and Mrs. Glen Rubland, Camp Hill.

While serving the Paradise Charge, he received 193 members into the church, performed 32 marriages, had 177 baptisms and 76 burials, also three nonmember baptisms and three nonmember burials.

front of him had stopped or stalled on the road ahead of him. To avoid that car, Ferguson had told the officer, he jammed on his brakes and swerved right and then left.

Disagree On Weather

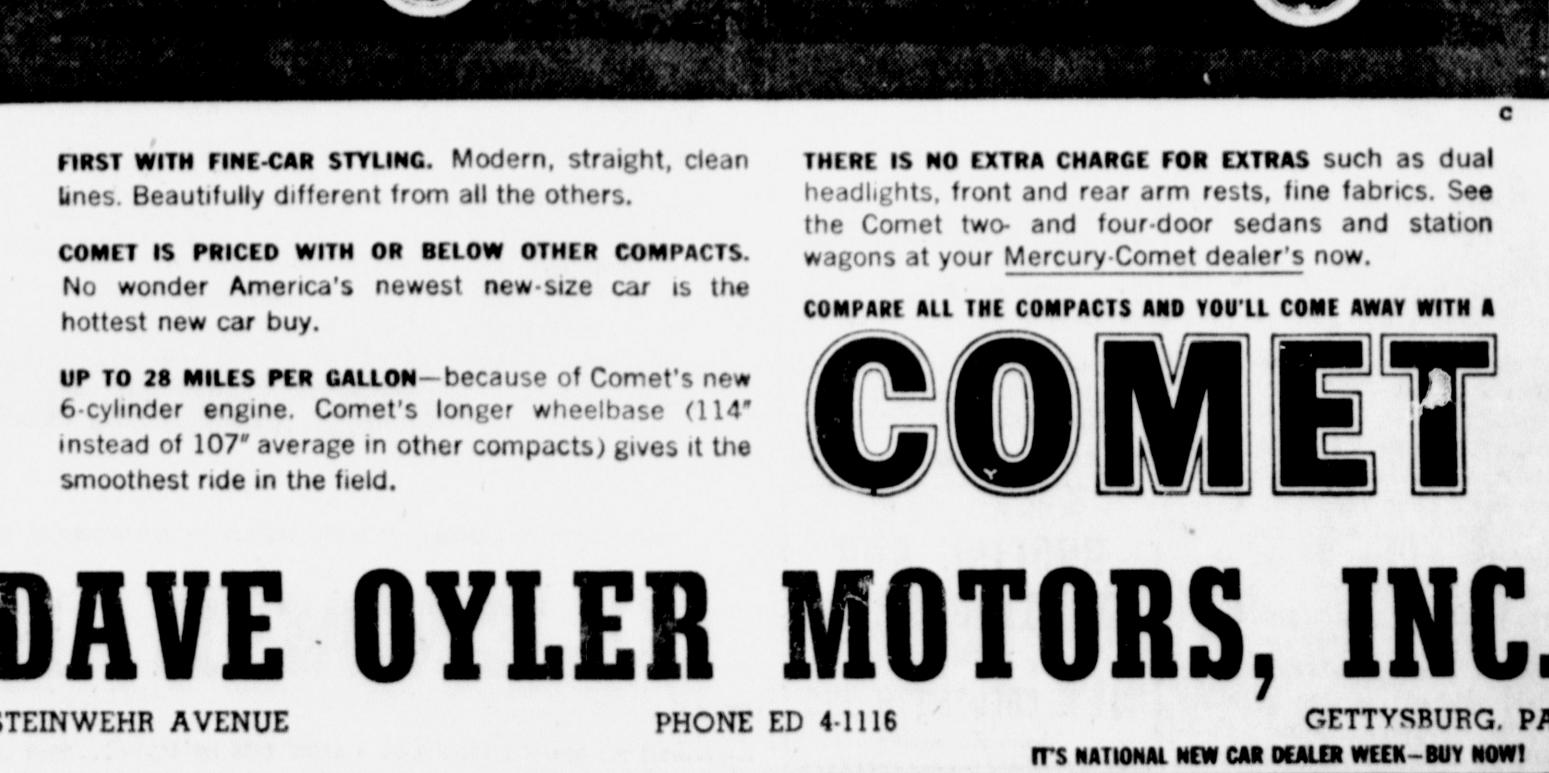

Dr. Crist told the jury no rain was falling the night of the crash and Officer Karr and other witnesses had testified the road was dry.

State police and District Attorney Daniel E. Teeter are to confer on the possibility of filing charges against Ferguson, who was represented at the inquest by Attorney Edward B. Buleit. Attorney Richard A. Brown appeared for Witmer and J. Francis Yake appeared in the place of Mr. Teeter.

Members of the jury were John W. and Betty Beach, Martin McSherry, J. Clair Sanders, Frank L. Mumper and Hugh C. McIlhenny, foreman.

There were 3,867 independent telephone companies operating at the start of 1958 in the United States.

## Today's Talk

BE YOUR FRIEND'S  
BEST FRIEND

How few there are of the friends we gather whom we can justly term as our friend's best friend. Most of can say from our heart that the best friend we will ever have is the one who bore us, and whose love and loyalty are as deathless as the stars, and who never surrenders that love and loyalty.

Lincoln once, "All that I am, or ever hope to be, I owe to my angel mother." The loss of this mother changed his entire life.

The story of that mother's death is one of the saddest I have ever read. Her passing tore into the lonely few years that the boy Lincoln had to experience into an almost forgotten grave the Mother of Lincoln was gently buried in a lonely pioneer bit of earth, but that mother remained as Lincoln's greatest friend. She softened his entire life when he taken corrective action.

How vivid is the picture of my mother as I told her goodbye in that little home in Iowa. That was over fifty years ago. I like to think that what little of worth I have, she gave from a full and selfless heart.

Tomorrow Mr. Adams will talk on the subject: "Rock Bottom."

CLAIMS GOP  
MARGIN IS CUT

HARRISBURG (AP) — Democrats hope to slice the Republican voter registration margin to its lowest point since the Civil War before the April 26 primary.

John S. Rice, Democratic state

chairman predicted over the week-

end and the GOP registered voter

edge would be reduced to 25,000.

He based his estimate on a party

survivor survey.

Republicans held a registration

lead of about 69,000 over Democra-

ts last November. The lead has

been dwindling steadily since

George M. Leader in 1954 became

the first Democrat-elected gover-

nor in 20 years.

At that time the GOP registration

edge was 90,714. It dropped to

21,606 when Gov. Lawrence

was elected two years ago.

Rice predicted the majority of

the state's voters would be regis-

tered Democratic before the No-

ember election.

## PICKS GIANTS TO WIN IN NL RACE THIS YEAR

By JACK HAND

Associated Press Sports Writer

NEW YORK (AP) — A pennant should fly over San Francisco's new Candlestick Park next October because of key moves the Giants made during the off-season to bolster their pitching and tighten their infield.

The addition of Billy O'Dell and Billy Loes, a southpaw starter and a right-handed relief man, plus the acquisition of second baseman Don Blasingame figure to give the Giants what they lacked last year when they blew the pennant in the last 10 days.

Billy Rigney's five-man staff ran out of gas in the stretch with Sam Jones trying to start and relieve. The hitters stopped hitting. The club lost seven of its last eight, including a vital three-game series with Los Angeles. Instead of worrying about the problems of playing a World Series in a ball park that was not completed, they settled for third place while Los Angeles and Milwaukee tangled in a pennant play-off.

## Milwaukee Second

Milwaukee is given the best chance of beating the Giants in this book with the Dodgers making it a three-way fight. Powerful Cincinnati with added pitching from Cal McLish and Bill Henry has an outside shot at the flag.

Pittsburgh, hoping for a solid comeback by Bob Friend, figures to fight it out with St. Louis for fifth, if Stan Musial can hold his spring training form for 100 games. Chicago's young pitching must continue to improve and Richie Ashburn and Frank Thomas must bounce back from bad years if the Cubs are to improve. The Phillies appear headed for another term in the National League cellar despite a generous injection of new blood.

Here's the way it looks from here:

1. San Francisco
2. Milwaukee
3. Los Angeles
4. Cincinnati
5. Pittsburgh
6. St. Louis
7. Chicago
8. Philadelphia

## ROBERTS TO HURL OPENER

FORT MYERS, Fla. (AP) — Veteran outfields Wally Post and Harry Anderson, both of whom slumped badly last year, may not be in the Philadelphia Phillies opening lineup against Cincinnati next Tuesday.

Both the left and right field positions are open. Some spring training observers are of the belief that Bobby Gene Smith appears to have the edge over John Callison and Anderson in left while Ken Walters, Post and Tony Curry are in a three-way battle for right.

The rest of the lineup appears to be set with Al Dark at third, Joe Koppe at short, Pancho Herrera at second and Ed Bouche at first. Bobby Del Greco is expected to start in center and Jim Coker will do the catching. Robin Roberts should draw the starting pitching assignment.

The Phillies open a two-game exhibition here today with the Pittsburgh Pirates.

RIVERSIDE, Calif. (AP) — Carroll Shelby of Dallas won the \$20,000 sports car Grand Prix Sunday in a race marred by the death of one driver.

Wealthy Argentine auto dealer Pedro Von Dory, 42, was killed when his Porsche RS 60 flipped over on the 59th lap of the 200-mile grind.

Shelby's winning time in a birdcage Maserati was 2 hours, 19 minutes, 12 seconds. He averaged 87.5 m.p.h. around the 3.7-mile course.

In second place more than half a lap behind was Ken Miles of North Hollywood, Calif., in a Porsche. Pete Lovely of Seattle, Wash., finished third in a Ferrari.

## SKINNER EYES GOOD SEASON

FORT MYERS, Fla. (AP) — Hard-hitting Bob Skinner of the Pittsburgh Pirates, whose batting average parachuted 41 points last year, figures he'll be among the National League's top hitters again this season.

"I'll be right up there this year, that's for sure," said the tall, lanky outfielder Monday. "The main thing is that now I feel real good."

Skinner's confidence is largely based on a sparkling performance this spring in Grapefruit League competition. He's batting .304 with 14 hits, including one home run and three doubles.

After turning in a .321 year in 1958, Skinner plummeted to .280 the following season. He suffered a back injury in Milwaukee early in the season when he rammed into a fence.

Skinner's not the only one hoping he has a better season in 1960. Manager Danny Murtaugh has already said that the Pirates' pennant chances this season depend a lot on Skinner's big bat.

## CHISOX ARE BANKING ON EXPERIENCE

By JOE MOOSHIL

CHICAGO (AP) — The Chicago White Sox are still trading away youth and promise for experienced ball players in an effort to win a second straight American League pennant.

The White Sox Monday peddled catcher Earl Battey and first baseman Don Mincher plus \$150,000 for Roy Sievers, slugging first baseman-first baseman whom they have sought for years from Washington.

It was the third major deal since winning the pennant last fall in which the Sox have traded away promising youngsters for proven sluggers.

President Bill Veeck, having reached the top, is determined to keep the club there and he has been adding power to the attack without hurting the team's front line pitching and defense.

## Question On Sievers

Aside from Battey, 24, and Mincher, 22, the Sox have traded away the likes of Johnny Callison, 21; Ron Jackson, 26; Norm Cash, 25, and Johnny Romano, 25.

Callison went to Philadelphia for third baseman Gene Freese, 26. Jackson was peddled to Boston for southpaw pitcher Frank Baumann, 26. Cash, Romano and Bubba Phillips, 30, went to Cleveland for Minnie Minoso who is anywhere from 37 to 40—no body knows for sure, probably not even Minnie.

Freese will play third base, Minoso left field. But the 33-year-old Sievers is a question mark. Manager Al Lopez has indicated Sievers will be used as a pinch batter and insurance for first baseman Ted Kluzewski and Minoso.

With his appreciation to all who help make the school's athletic program a success. Numerous introductions were made including the Delone coaches, Bucky Kempson and J. T. Flaherty with their various assistants.

## Question On Sievers

Aside from Battey, 24, and Mincher, 22, the Sox have traded away the likes of Johnny Callison, 21; Ron Jackson, 26; Norm Cash, 25, and Johnny Romano, 25.

Callison went to Philadelphia for third baseman Gene Freese, 26. Jackson was peddled to Boston for southpaw pitcher Frank Baumann, 26. Cash, Romano and Bubba Phillips, 30, went to Cleveland for Minnie Minoso who is anywhere from 37 to 40—no body knows for sure, probably not even Minnie.

Freese will play third base, Minoso left field. But the 33-year-old Sievers is a question mark. Manager Al Lopez has indicated Sievers will be used as a pinch batter and insurance for first baseman Ted Kluzewski and Minoso.

With his appreciation to all who help make the school's athletic program a success. Numerous introductions were made including the Delone coaches, Bucky Kempson and J. T. Flaherty with their various assistants.

## COMMITTEE ON EDUCATION TO HOLD HEARINGS

HARRISBURG (AP)—Gov. Lawrence's committee on education will begin public hearings late this month in its comprehensive study of Pennsylvania's education needs over the next 10 years.

"We are encouraging testimony from professional and lay persons, from educators, administrators, specialists and the general public to bring before us as many viewpoints as possible," Lt. Gov. John Morgan Davis, committee chairman, said Monday.

Each of the committee's eight task forces will hold five public hearings in Harrisburg between the end of April and June 3.

### Wants Tax Program

Gov. Lawrence told committee members at an organization meeting Monday they will be responsible for coming up with a tax program as well as recommendations for the best possible education program.

"A mandate as broad as this makes this both an educational and a tax study committee," he said.

Dr. Ernest O. Melby, dean of education at Michigan State University, told the committee that Americans are reluctant to invest in education.

"It's harder to get money for education today than in all my 47 years of teaching," he said. "We are suffering from prosperity."

Russia, he said, is spending about 6 per cent of its national income on education while the U.S. has been spending about 3 per cent.

Dr. Charles H. Boehm, state superintendent of public instruction, told the committee "in the next decade an enormous increase in tax funds for the support of education at the elementary, secondary and higher education levels will be required."

Davis told the 29 committee members he hoped their recommendations would be ready for the early part of the 1961 legislative session.

Another meeting of the full committee was set for April 18 when Dr. James B. Conant, noted educator, will address the group.

## PATTON CLAY 'OVER THE TOP'

PATTON, Pa. (AP)—The Patton Clay Manufacturing Co. is over the top in the bond drive which could put the firm back on its financial feet.

George Lehman, chairman of the community-supported drive, said Monday \$242,000 in bonds have been purchased or pledged to be purchased. The goal had been set at \$240,000. Lehman said he expects the total to go even higher.

## MORE DELAY ON SUCCESSOR TO WM. VOIGT

HARRISBURG (AP)—Selection of a new executive director for the State Fish Commission probably will be delayed another month.

Albert R. Hinkle Jr., president of the commission, said Monday it is still studying qualifications of several possible successors to William Voigt Jr., who was ousted in January.

"There is no front runner for the job," Hinkle added.

He said a decision may be made at the commission's meeting in Bellefonte next month.

### Answers Criticism

Hinkle also replied to criticism from the Pennsylvania Federation of Sportsmen's Clubs about commis-

which Patton Clay, the main industry in this Cambria County town, is trying to obtain money that will enable them to modernize the plant.

The firm's 203 production workers have been giving the company two days' pay each week as another means of aid. This six-week program began early in March.

The company promised to reimburse the workers in October or November.

Patton Clay manufactures sewer pipe, flue liners and various forms of tile and fire brick. It has been in the community since 1890.

sion hearings being secret.

"While our meetings are not open to the public," he said, "we are always glad to give any responsible group or person a hearing and we will answer any questions asked by the press or the public concerning policy matters decided in our meetings."

The State Justice Department has ruled that the Fish Commission is not affected by the Commonwealth's right-to-know law requiring open meetings of government agencies.

### Hire Writer

In other action at its regular meeting the commission authorized the hiring of George W. Forrest of York as an outdoors writer for its monthly publication, the Pennsylvania Angler.

J. Allen Barrett, editor of the magazine and chief of the commission's Conservation Education Division, said he planned to move Forrest into the editorship in a month or two.

Forrest, who was editor of the Angler for several years in the early 1950s, has been doing freelance work.

### Reports On Survey

The commission also reported a survey taken from applications for 1959 fishing licenses showed 56.8 per cent of Pennsylvania fishermen fished for trout in 1958 but only 6.03 per cent did any ice fishing.

The commission also adopted standards for spears and gigs used in catching carp and suckers in specified streams.

The devices may have up to five barbed points but they may not be mechanically propelled. However, the use of the long bow and arrow will continue to be permitted as well as lights at night.

## SAYS FOREIGN WOMEN ENVY U. S. SHOPPING CENTERS MOST

By DOROTHY ROE  
AP Women's Editor

Know what women of Europe and the Orient most envy in the life of the American woman?

Not her clothes. Not even her push-button appliances. The American utopia, to the rest of the feminine world, is the modern shopping center.

Women just naturally love to shop, says David Muss, Chicago builder whose firm has built shopping centers all over the country. And the more luxurious the shopping center, the more time the average woman will spend in it and the more she will buy.

### Becomes Family Picnic

With the growth of the suburban shopping center, family buying habits have changed, says Muss. Nowadays mom doesn't go alone to buy the groceries for the week. Instead she takes the whole family, and the shopping trip becomes a picnic.

At the modern shopping center they can have dinner in a restaurant, maybe see an art exhibit or motor show, stock up on all the family needs, from school clothes to garden supplies and from drugs to groceries, then wind up the evening with a movie.

### Evening Of Recreation

"Family one-stop shopping is the new thing," says Muss. "New centers have all categories of shops, plus restaurants, movies, play areas, nurseries—even bowling alleys, in some cases. The idea is to have something to interest every member of the family, and make the family shopping trip fun."

The current trend, says he, is toward evening shopping, and many shopping centers stay open until 9:30 every night except Saturday. Many are opening later, too, at any hour from 10 to noon.

The idea behind this is sound. The weekly shopping trip gives mom a chance to have dinner out, and the whole family to have an evening of recreation.

### GETS QUICK ACTION

TUCSON, Ariz. (AP)—Reaction to Superintendent of Schools Robert Morrow's suggestion for a 10-month school term was quick. He was hanged in effigy a few blocks from Tucson High School.

### MAIL IS SLOW

TULSA, Okla. (AP)—Post office workers found a batch of letters and cards, some mailed in 1930, behind a mail assortment box when it was removed.

The four fastest growing consumer product businesses in the past 12 years have been air-ances, clothes drying appliances and boating industries, says a U. S. government report.

## National Library Week

MRS. KENNETH L. SMOKE

With the attention of the nation turned to libraries during his National Library Week, opportunities for a career in this field come into new focus. As in many other fields, increasing specialization marks the profession. Although there is growing need for more librarians in general, openings for special librarians continue to multiply rapidly. Interest in practically any field of endeavor can now become a career in library work, since specialization in the complex society of this century has created the need for specialized

services relating to various fields of activity.

There are challenging positions for special librarians in industry, government, and the professions. The highly competitive character of modern industry has required companies to assemble materials in the fields of marketing, insurance, research, advertising, public relations, finance, etc., with the necessity of having a librarian, trained in the specialized field, to make their collections readily available for reference.

Law libraries, medical libraries, trade associations and scientific libraries all require librarians trained in those areas. Government libraries hold special interest for those concerned with public service. These libraries abroad offer the additional attraction of combining travel with professional work.

For those who enjoy academic life but do not want classroom teaching, school, college, and university library posts are satisfying careers. Closely related to these are positions in museum libraries.

Many Opportunities  
Interesting opportunities also exist.

await the librarian who chooses to specialize in type of library work, rather than kind of library. For instance, there are children's librarians, with their story hours; rural librarians, with their bookmobiles; reference librarians, with their endless variety of questions to be answered; technical librarians, who find fascination in making effective library catalogs; and serials librarians, who like to work with periodicals, to mention a few.

For those who choose library work as a career there are limitless opportunities to find a type of activity to satisfy every interest.

## CHEVY! YOU CAN'T BUY ANY CAR FOR LESS...UNLESS IT'S A LOT LESS CAR!

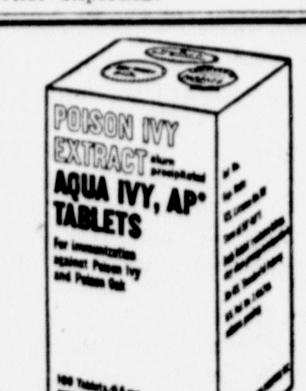

Anyone who's looked around knows the majority of Chevrolet models—6's and V8's together—list for less than comparable models of other low-priced cars. But the price tag alone is only one of a whole raft of reasons a Chevy does better by your dollars.

Nothing near Chevy's size and price can match the Full Coil cushioning of its ride, or the fine, finished workmanship of its Body by Fisher. That even applies to some cars that cost a lot more. You're up in the higher price brackets before you find a car that moves as quietly as a Chevrolet or offers the inner space that Chevrolet does.

Or look at the extras Chevy gives you—at no extra cost—that others in its class can't offer at any price. Shock-cushioned steering. Safety Plate Glass in every window. Keyless locking of all doors. Crank-operated vent windows. Chevrolet offers the widest choice of power teams, too. Drive a Chevy just once. You'll have a tough time settling for anything less.

# Astronomers Believe Other Planets May Have Life; Try To Pick Up Their Signals

By ALTON BLAKESLEE  
Associated Press Science Writer

GREEN BANK, W. Va. (AP)—Once upon a time, man believed he lived in the very center of the universe, supremely alone.

But today's astronomers are pretty confident intelligent life and civilizations thrive on hundreds or millions of planets.

And somebody out there, they think, could be astonishingly far advanced by having lived and invented for hundreds, thousands or even a billion years longer than man has on earth.

## Prime Reasons

Scientists here just recently developed sensitive antennae and radio amplifiers which could pick up signals beamed our way from planets thousands of billions of miles away.

These are prime reasons for attempting now to listen for signals from space, using the gleaming radio telescope — 85 feet in diameter—at the National Radio Astronomy Observatory here.

Special equipment for this first vigil has cost only about \$10,000 in taxpayers' funds, through the National Science Foundation which supports the observatory.

## Billions Of Suns

There are compelling reasons for hoping for success ultimately if not immediately, explains Dr. Frank D. Drake, astronomer directing Project Ozma.

Man lives and is warmed by one rather ordinary star—our sun.

Our sun is one of perhaps 200 billion suns or stars making up a great galaxy, the Milky Way. The Milky Way is only one of billions of galaxies, some with more and some with fewer stars.

## Others In Similar Spot?

Many astronomers now think that somewhere between one and fifty per cent of all stars have planets wheeling around them.

To support life, a planet must be neither too close nor too far from its star. Earth is fortunate

# The POWER of FAITH

by Howard Brodie

**N**ow it can truly be said that the earth turns on a point of faith," reads the inscription on the chapel wall at the South Pole Station. There the 17 Navy men of Deep Freeze IV have brought the warmth of faith onto the frozen continent of Antarctica.

When their recreation building, where services were held, caved in under the weight of snow early this year, Petty Officer C. Norman Engel of Spring Lake, N. J., requested permission to build the chapel. All members of the group pitched in to Carpenter, paint or shovel snow. The U. S. Navy sent me a photograph, on which this sketch is based, after the first plane was able to land there in November. There is a steeple and cross on top of the gabled roof. Inside, on the altar, is a reversible cross, plain on one side and a crucifix on the other. On either side is a Star of David and the Buddhist Lotus leaf, for among the men are at least one Protestant, one Catholic, one Jew and a Buddhist. Each took turns on Sundays to give sermons to his crewmates on his religion in "The Chapel of Our Faith."

# James MARLOW Reports

The Associated Press

WASHINGTON (AP) — Winning the Wisconsin presidential primary in recent years has been like winning one free pass to the exit.

So, even if Sen. John F. Kennedy (D-Mass) beats Sen. Hubert H. Humphrey (D-Minn) in the Wisconsin Democratic primary Tuesday, it's no assurance he will win the Democratic presidential nomination at his party's convention in Los Angeles.

Look what happened to Sens. Estes Kefauver and Robert A. Taft in the past two elections and, before them, to Harold Stassen.

Tennessee's Kefauver won the Wisconsin primary twice in a row — in 1952 and 1956 — but both times later lost the Democratic presidential nomination to Adlai Stevenson who did not run in either primary.

## Other Winners

Ohio's Taft won the Wisconsin Republican presidential primary in 1952 but then lost his party's presidential nomination to Gen. Dwight D. Eisenhower.

The forever hopeful Stassen won in Wisconsin in 1948 only to be drowned out later when the Republican convention chose Gov. Thomas E. Dewey of New York for its presidential candidate.

In 1952 in Wisconsin Kefauver had no opposition except for a couple of stand-ins for President Truman. But Truman had already said he was not a candidate.

That year Kefauver won 14 out of 16 primary races.

He had the primary all to himself in 1955, just a couple of weeks after beating Stevenson in the Minnesota primary.

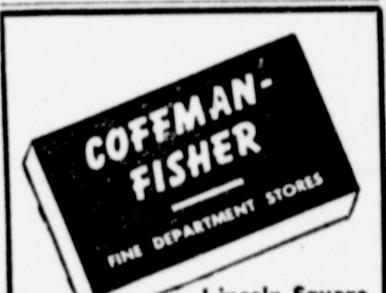

## "Waste of Time"

The Tennessee's experience tends to support what Truman said this past weekend: that primaries are "eyewash" and a "waste of time" and if a candidate wants to be nominated he should not enter the primaries.

Nevertheless, Kennedy and Humphrey are battling in Wisconsin and have entered other primaries in an effort to show they can win voter support.

Stevenson, who took a physical beating running in the primaries in 1956, got his fill of it that year. This year, of course, he says he is not seeking the nomination, which is a good excuse for not going into primary races. But he has not said he would refuse the nomination.

## SHE'S ONLY PA. WOMAN IN HER FIELD

By DAVID A. LEHERR

PITTSBURGH (AP) — No, there's nothing strange about being Pennsylvania's first and only woman sanitary engineer.

"Most people do what they like best, and I enjoy my line of work the most," says Miss Patricia L. Fuehrer, the woman who holds that distinction.

Miss Fuehrer, 26, is the new assistant regional engineer in charge of the facilities unit in the State Health Department's Pittsburgh office.

Covers Six Counties

At her post she reviews a 111 plans for construction of water systems, sewage disposal plants, industrial waste disposal and public bathing places.

Her territory covers Allegheny, Washington, Westmoreland, Greene, Fayette and Somerset counties.

### Dad's Footsteps

What induced Miss Fuehrer to crash a profession which until now has attracted only men in this state?

"I used to tag along with my father to work when I was a kid," said Miss Fuehrer. "He was a civil engineer then and I enjoyed it so much, I guess the idea just grew on me." She added:

"Then when I was in high school and my classmates talked about their chosen professions I decided it was time I made up my mind what I wanted to be. So I chose to become a sanitary engineer."

### Sex Not Important

The Pennsylvania State University graduate was appointed the state's first sanitary engineer two weeks ago.

Miss Fuehrer said her sex is neither a deterrent nor an asset to her job.

"I could say that a woman's knack for cleanliness is an asset,"

## DEATHS

By THE ASSOCIATED PRESS

JACKSON, Miss. (AP) — George L. Sheldon, 90, governor of Nebraska in 1907 and 1908, died Monday after a long illness. After moving to Mississippi, he became head of the Republican party in the state, served in the state Legislature and was collector of internal revenue in Jackson.

DETROIT (AP) — Arthur E. James, 72, who was the Detroit News' question and answer man for 38 years before he retired in 1955, died Saturday. He was born in Newcastle-on-Tyne, England.

PHILADELPHIA (AP) — Herbert C. Morris, 78, cofounder and chairman of the board of the Tasty Baking Co., died Monday. He was born in Cleveland.

## DECISIONS BY STATE'S FISH COMMISSION

HARRISBURG (AP)—The State Fish Commission will stop stocking trout in a four-mile section of Spring Creek, Centre County.

The commission, at its regular meeting Monday, declared that if conditions do not improve stocking of trout in the section will be discontinued permanently.

A spokesman said technicians' surveys have shown a decrease in the carryover trout population in winter on the four-mile stretch between Slab Cabin Creek, near State College, to just below the commission's Bener Springs Hatchery area. The rest of Springs Creek will be stocked as usual.

### Indicate Pollution

"The clean stream fish food organisms (natural food) are almost nonexistent," said the spokesman. "The organisms we do find are more indicative of pollution."

The commission also selected six areas for stream improvement under its accelerated program to aid natural fish reproduction and provide more fishing places.

The commission will have two stream improvement crews this year instead of one. The additional crew will spend approximately two months on each stream during the six-month warm weather period in which the work can be done.

### To Be Improved

Streams selected for improvement were: Little Bear Creek, Lycoming County; Asaph Run, Tioga; Dickey's Run, Franklin (continuation); North Kill Creek, Berks; South Branch of Little Aughwick, Fulton, and Thompson Run, Warren.

At the same time the commission opened 54 miles of tributaries of Slate Run for fishing. The tributaries, in Lycoming, Tioga and Potter counties, previously were designated as hatchery waters and fishing was prohibited.

The commission said all kinds of fishing will be permitted on the tributaries but Slate Run itself continues to be limited to fly fishing.

### Fishing For Fun

In other action, the commission designated sections of five streams for fly fishing only and declared fishing for fun only in two other areas.

Areas which will have only fly fishing were: the first fork of Sinnemahoning Creek from the Cameron-Potter County line southward about three miles; a new one-mile section of Penn's Creek, Union County, in the vicinity of Cherry Run; a 1.4-mile section of Potter Creek, Bedford County, near Twp. Route 594; a one-mile section of

## Are YOU The Next Target For POLIO?

Last year paralytic polio actually increased among those who'd not been vaccinated. And now the polio season is almost here again. This year, don't let you or your family be targets for this crippling disease. Remember, it takes eight months to complete your shots. So get them NOW before it's too late.

## "NO FASHIONS FOR EASTER," NEGROES SAY

By THE ASSOCIATED PRESS

A new battlecry, "No fashions for Easter," has been sounded in the fight by Negroes for equal treatment in Southern business establishments.

Dr. Vivian Henderson, an economics professor at Fisk University, Nashville, Tenn., urged more than 500 Negroes at a meeting in Nashville to continue boycotting downtown business firms, even to the point of passing up Easter finery.

The boycotts were begun two weeks ago in support of efforts to end racial segregation at lunch counters. Henderson said, "Millions of dollars are being lost by the city of Nashville over a 25-cent hamburger."

### Truce Broken

In Memphis, Tenn., a two-week truce was broken when eight Negro students were arrested Monday at public libraries restricted to white persons.

Two Negro ministers and 10 students drew fines of \$100 and 180 days in jail each after being convicted in Birmingham, Ala., Monday night on charges resulting from sit-in demonstrations.

One of the ministers, the Rev. F. L. Shuttlesworth, drew the same penalty on yet another

## BLAMES FAGS FOR CANCER; ASKS MILLION

PITTSBURGH (AP)—Defense counsel contends in a civil suit no doctor can say for certain heavy smoking causes lung cancer.

The disease is the "great riddle of the medical profession today," Earl F. Reed, attorney for Liggett & Myers Tobacco Co., told a U.S. District Court jury Monday.

Otto Pritchard, 61, a Pittsburgh cabinet maker, filed the \$1,250,000 suit against Liggett & Myers, contending Chesterfields and other cigarettes gave him a cancerous lung.

In his opening statement, James P. McArdle, attorney for Pritchard, said medical scientists could determine whether cigarettes caused the cancer.

"Not Frivolous Case

"This is not a frivolous case nor an experiment in law," said McArdle. "If it were, we would not be able to get some of the distinguished witnesses we have been successful in calling."

McArdle said tarry compounds in cigarette smoke caused lung cancer. He accused Liggett & Myers of using "deceitful advertising, even after it became medically known that cigarettes contained harmful ingredients."

The boycotts were begun two weeks ago in support of efforts to end racial segregation at lunch counters. Henderson said, "Millions of dollars are being lost by the city of Nashville over a 25-cent hamburger."

On the other hand, defense counsel said he would prove Pritchard was engaged in occupations such as carpentry and metal working that show high incidence of lung cancer.

Had Lung Removed

"To win this case," said Reed, "he's got to show you that cigarettes caused his lung cancer and it's our contention that this can't be done."

In his suit, Pritchard said he had a lung removed in December 1953, because of cancer. This disease, he charged, was caused by his smoking Chesterfield cigarettes regularly for 23 years.

## FINAL OKAY ON CIVIL RIGHTS BILL EXPECTED

By JOE HALL

WASHINGTON (AP)—The Senate pushed today final passage of the 1960 civil rights bill with the two party leaders apparently holding the votes to beat off any other amendments.

Senate Minority Leader Everett M. Dirksen (R-Ill.) told a reporter he was convinced there was a good chance to finish with the measure and send it back to the House tonight.

Senate Democratic leader Lyndon (D-Tex.) declined to make any prediction, but scheduled another long session to speed action.

Tabled, and thus killed, by decisive votes were amendments to:

1. Provide for federal enrollment officers, as well as the voting referees provided in the bill, to register Negro voters in areas where a pattern of discrimination is found to exist. Killed 58-28.

2. Knock out a requirement that after a federal judge has found a discrimination exists, Negroes must try to register with state officials before applying to the court-appointed referee. Killed 58-28.

3. Give the attorney general broad new powers to intervene in school integration and other civil rights cases. Killed 56-34.

4. Provide aid to school districts working to end school segregation and to put Congress on record as endorsing the 1954 Supreme Court school decision. Killed 61-30. Still undetermined was whether Southern senators would filibuster to delay final passage of the bill; once all amendments have been acted on.

charge—giving a false report to police. The charge was in connection with the report a Negro had been a victim of a castration attempt by white men.

Plan Appeals

All 12 of those convicted said they would appeal.

Not all of the racial trouble was in the South. Two Portland, Ore., Negroes were charged with the senseless beating to death of a white man. Paul Arnold Machen and Charles Ivan Patterson Jr., both 21, were charged with murder. Police said they had been drinking and one of them reported they became upset over racial troubles in Africa and the South and wanted to do something about it.

## DE GAULLE TO BRITAIN TODAY

LONDON (AP)—Jet-age diplomacy, with heads of state on the go around the globe, brings French President Charles de Gaulle to Washington to see President Eisenhower.

Officially, De Gaulle is returning to Paris to meet the Queen made to Paris in April 1957. The French leader's visit also coincides with the 50th anniversary of the Entente Cordiale, the French-British proclamation of friendly relations signed April 8, 1904.

LONDON (AP)—Prince Charles, 11-year-old heir to Britain's throne, made his first appearance as an actor Monday night, Charles appeared as an usher in a play at Cheam School, where he is a pupil.

The President chose the Republican Women's National Conference as the forum for his opening salvo of the party's campaign to elect Nixon as his successor. The speech, a preview of the kind he is likely to make as the campaign progresses, contained some sly digs at Democratic presidential hopefuls.

About 7,000 persons heard his speech, cheering both Eisenhower and Nixon, who introduced the President and lauded the record

Gaulle to Britain today. The soldier-president was flying over from Paris for a three-day state visit to Queen Elizabeth II. He will also talk with Prime Minister Harold Macmillan about the economic split in Western Europe and issues that will be discussed at the East-West summit conference next month.

De Gaulle's meetings with Macmillan mark the midpoint of the French president's preparations for the summit. He conferred last week and the week before with Soviet Premier Nikita Khrushchev, and later this month he goes to Washington to see President Eisenhower.

"Our nation is the most powerful in the world," Eisenhower said, "and only the ignorant and the blind insist it to be otherwise."

## IKE PRAISES NIXON; REPLIES TO HIS CRITICS

By GEOFFREY GOULD

WASHINGTON (AP)—With a partisan crowd cheering him on, President Eisenhower praised Vice President Richard M. Nixon and struck back lustily Monday night at Democratic critics of his defense policies.

"Our nation is the most powerful in the world," Eisenhower said, "and only the ignorant and the blind insist it to be otherwise."

At another point, Eisenhower said, "It's not my purpose tonight to take off into oratorical orbit—as they are both at home and abroad."

he has made.

Eisenhower's praise of Nixon was unstinting. He said Nixon has been "a credit to the administration, our party, and our country."

Since 1952 he has gained nearly

eight years of added governmental experience at the highest level—a tour of seasoning unmatched in the nation's history. All of us

know him as a man of integrity and deep faith."

atorial hopefuls doing that, each hoping to scramble into the chair it shall soon vacate." Since Nixon is unopposed for the Republican nomination, the senatorial hopefuls he glib at could only be Democrats.

Capital Hill reaction came quickly from Sen. Mike Mansfield (D-Mont.), assistant Senate Democratic leader. Mansfield called it a "good partisan speech" but said

Eisenhower failed to tell the American people "the facts of life" as they are both at home and abroad."
